5.3 Graduate Migrations

These tables reflect data on students who have moved overseas for employment or educational purposes following graduation. The data was compiled after an APTC Alumni revision of all alumni members in this quarter. All migrations may not be reported due to difficulties in contacting previous students. Table 5.3a represents known migration of students and Table 5.3b represents migration of qualifications.

5.3 (a) Graduate Destinations by Citizenship and Destination

Stage	Destination Country	Citizenship Country								TOTAL
		Fiji	Kiribati	PNG	Solomon Islands	Tonga	Tuvalu	Vanuatu	Samoa

Students

Student Activities

Participants in the Fiji Salon Culinaire held in Nadi in late 2013 included many past APTC graduates and 26 current students, and saw them compete against industry professionals. Judges for the competition came from across the world, including New Caledonia, Australia, New Zealand, France, England, Scotland, Wales, and Fiji. All judging was based on World Association Chefs Societies (WACS) criteria and follows international guidelines and rules.

The organisers praised the students for demonstrating such high practical work standards and commented on their professional attitudes.

As a result of their performance an executive chef from an island resort contacted APTC seeking to employ four current students on completion of their training.

An APTC graduate was crowned the Fiji Pastry Chef of the Year for 2013. In the Fiji Chef of the Year competition, where contestants were presented with a challenging mystery box of local ingredients, a current commercial cookery student won a bronze medal.

The final tally for APTC students in the competition was nine gold, eleven silver and thirteen bronze medals.

Aged Care / Health and Community Care students

Students from HACC/Aged Care were invited by the zone nurses at Nayavu Health Centre to participate in the “Harvest Wellness in You” community project at Bucalevu Village.

Students had the opportunity to utilise some of the skills learnt in their course, such as; taking blood pressure, checking height and weight, monitoring blood glucose levels, as well as leading leisure and lifestyle activities with older people in the Bucalevu Village and surrounding areas. This is the first time that APTC students have been invited to work in a village environment and experience the important role that health workers undertake in the community. It proved to be a unique opportunity for international students to experience the promotion of health and wellness in Fiji and take from this ideas and/or improvements that they can implement at home.

Education and Training Delivery

Educational processes:

An extensive amount of work has been undertaken in the past couple of months to streamline a number of educational processes to create consistency and to improve teaching and learning outcomes.

Industry Placements:

158 students from the School of Hospitality and Community Services have completed industry placement. Host employers included Sheraton Denarau, Father Law Aged Care facility Suva, Fiji Youth Council and Sabeto Muslim School Nadi.

Small Business Workshop

A Small Business workshop in late December 2013 was facilitated by an APTC tutor and trainer.

Presenters discussed topics including finance for small business, sustainability for small business with several presentations given by current small business owners.

Tutor Professional Development

Fiji based SHCS tutors have been undertaking an internal 'tutor swap program'. Tutors have been sent to other Fiji campuses to deliver aligned programs and working under a different trainer. This initiative proved to be a good opportunity for tutors to learn alternative approaches to training delivery and assessment. The initiative also serves to strengthen collegiate networks. To date seven tutors have spent a minimum of one week at a different campus working with a different trainer. Feedback from tutors and trainers has been extremely positive. This initiative will continue throughout 2014.

New Tutor Development – Certificate IV in TAE

Three new Suva based tutors have commenced their Certificate IV in TAE training this year. A Disability tutor, Learning Support Facilitator and a Tiling tutor commenced their Certificate IV in Training & Assessment in Nadi in February. The program has been scheduled over four sessions and includes both APTC staff and external fee paying students.

Feedback from attendees has been extremely positive; with the Fiji Air Terminal Services Training Manager commenting about the value of the program for her staff, and for herself as the Training Controller for ATS.

Industry consultation

Delivery from new training packages for Hospitality, Cookery, Tourism and Community Services commenced in 2014. Over sixty employers representing seven industry sectors were involved in this process. All planned delivery and assessment strategies have been reviewed and validated by industry to ensure they are meeting industry needs.

The School of Trades and Technology hosted an Industry Reference Group (IRG) meeting in early February, attended by industry representatives from all the industry sectors aligned with STT, including a number of vocational teachers from Fiji National University (FNU), who are members of established teacher networks invited to attend.

The IRG was a combined event with both the construction and engineering stakeholders in attendance. Trainers and tutors provided a brief overview to the whole of the IRG of training program structures and content. The consultation facilitated the sharing of knowledge with stakeholders and industry confirmation that current program content and delivery continue to meet their needs.

Events such as these forge links with industry, and benefits include identifying potential host employers for vital industry placement activities.

Stakeholder Engagement: Australian Aid, Industry and Community

Scoping of the Fiji Fashion and related Industries for training in Applied Fashion and Design Technology

The Fashion Council of Fiji sought assistance from APTC to deliver an Australian award course tailored for their industry in Fiji. Former Fiji Fashion Council Chairman Mark Halaby, Fiji Fashion Week organiser Ellen Whippy, Australian Aid representatives and other industry stakeholders met with the APTC CEO to discuss delivery of training for the Clothing Textile and Fashion industry across the Pacific.

The meeting afforded an opportunity to discuss the formation of structured fashion training facilitated by APTC. The meeting concluded with recommendations to undertake a Training Needs Analysis (TNA) of the local industry. This has since been completed. As a result of the TNA the delivery of a Certificate III in Applied Fashion & Design Technology, addressing garment construction and manufacture, commenced in February 2014. A Suva-based industry training model located at the major industry stakeholder's workshops is being used.

An existing worker cohort of 25 students has progressed with a skills recognition process which includes working alongside employees in their workplaces ahead of formalised training. Periods of release from work are scheduled so employees can attend small group training sessions.

Industry visit to APTC facilities

In March, APTC hosted a visit by the former Education Minister, Netani Sukanaivalu (now Managing Director of Horeb Engineering Company Limited) and the FNU Dean of Engineering Dr. A. Angamuthu. The visit followed an open invitation to industry to view the APTC training facilities and discuss programs and delivery.

Horeb Engineering has several APTC graduates as employees, and Netani Sukanaivalu invited the FNU Dean to meet with APTC engineering staff, visit the facilities, and see the equipment required to meet Australian Qualification requirements being used by students.

Alumni Activities

APTC 2012 Early Childhood graduate has provided training to the Lautoka community about communicating well with children. The session was presented to the parents and teachers of the Vimla Reddy preschool on the topic of Speaking Positively with Children.

Other students have also taken up the challenge to speak to large audiences and presented to the Children's Week conference about the Rights of the Child, and Sabeto District school community during their children's week celebrations.

Business Development: FFS Activity, New Partnerships

Tonga project

Two SHCS staff visited Tonga to deliver workshops to sixty Tongan early childhood educators. The theme of the workshops was 'Disability Inclusiveness in Early Childhood Education'. Feedback from client was very positive.

Students

Student Activity

Recent student excursions have included a picnic at Sunset Lodge, located about forty kilometres from the APTC campus along the west coast. The journey provided the opportunity to visit a local village and past the almost-completed LNG facility on the way. Three groups of students who had completed their training were farewelled at a special campus BBQ on 21 February. They spoke very highly of the APTC project and the positive impact it was having on their lives and the lives of their families.

Passport Applications

The APTC Student Services team are currently working with the Department for Community Development, Youth and Religion to assist APTC awardees from regional PNG with the processing of birth certificates to enable them to receive a passport. The processing of birth certificates and passport applications has been a significant hurdle for PNG citizens who accept scholarships to study overseas.

Education and Training Delivery

Seventeen Food and Beverage staff from hotels around PNG will graduate with a Certificate III Hospitality as a result of APTC training. The success of this and previous programs has contributed to the development of this strong partnership between industry and APTC.

The December 2013 graduation in PNG saw a total of 111 students receive their awards. A further twenty-two were unable to attend the ceremony. The keynote speaker was the Minister for Labour and Industrial Relations. The closing remarks were made by the Minister Counsellor Development Assistance, Department of Foreign Affairs and Trade.

HR, Staffing, Administration, Educational Professional Support

PNG campus has recently appointed a Senior Trainer, to take up the role of supporting teaching, learning and compliance, as well as working closely with the national tutors to develop their skills to deliver accredited VET programs.

APTC has also appointed new trainers in carpentry and electrotechnology in PNG.

Stakeholder Engagement: Australian Aid, Industry and Community

PNG Training and Development Society (PNGTDS) Conference

Several PNG academic staff who are members of PNGTDS, attended sessions at the annual conference held in Port Moresby. The conference was attended by administrators and trainers from a wide range of public and private institutions across PNG, including many of APTC's industry partners.

Facilities, ICT, Assets: Accommodation, Security Equipment and Buildings

The Port Moresby Campus development includes:

- extension of the electrical department with two dedicated mezzanine classrooms in the workshop
- extension to the main workshop to provide a covered area for carpentry and construction training
- relocation of staff accommodation off campus
- two new classrooms on campus to provide a dedicated resource/study centre for students
- hospitality facility which includes:
 - cookery training kitchen
 - training restaurant and bar
 - 80 bed twin-share dormitory
 - double classroom

The completion of the hospitality training facility has a revised handover date of June 2014. This will see the first classes commence in July 2014. Mezzanine classrooms for Certificate III in Electrotechnology training have been completed and are now in full use.

POMTECH Workshops

With the support of MJF from Queensland, the APTC/POMTECH partnership has funded the refit of twelve lathes and six milling machines and installed new drill presses. Cooperation between APTC trainers and POMTECH staff through shop meetings has seen the workshops machines and equipment undergo maintenance and improved OHS standards are in place.

Business Development: FFS Activity, New Partnerships

Urban Youth Development Project

APTC has partnered with POMTECH to win a tender for the delivery of an Urban Youth Development Project - Trade Skills Program funded by the World Bank.

FFS Courses

APTC conducted a four-day basic computer training program for awardees from the Australian Award program in PNG. The training was designed to equip students for academic study in Australian universities, and was delivered at the POMTECH computer centre.

A second group of students have commenced study in the Certificate IV in Training and Assessment at the Port Moresby campus.

FFS Submissions

There are a number of FFS training submissions currently under consideration in PNG.

Partnerships

The National Department of Works has expressed interest in the development of a partnership between APTC and the Works Institute of Technology (WIT). WIT has several well equipped training workshops in Port Moresby as well as major transport and civil construction facilities in all major provincial centres. WIT conducts programs in

- Auto Electrical
- Carpentry & Construction
- Plumbing & Gas fitting
- Electrical
- Maintenance Fitter & Machining
- Refrigeration & Air Conditioning
- Metal Fabrication & Welding
- Business Studies

The Country Manager represented APTC as a member of the Pacific Growth in Employment Project (PGEP) Task Force in PNG. PGEP is focussing on the transport sector in PNG, and the project is a collaborative activity involving the Australian Business Council, Australian Council of Trade Unions, Australian Aid and Transport Industry sector stakeholders. At its first meeting the task force agreed to consider working with stakeholders to establish training programs for critical areas of the industry.

Students

A student cultural day was conducted to share the unique cultural diversity of the APTC student group studying in Samoa. All staff and students from Samoa, Fiji, PNG, Solomon Islands, Vanuatu, Tonga and Tuvalu dressed in cultural dress, displayed their arts and crafts and performed a cultural dance. There were a number of activities including coconut husking, basket weaving and fire making. Food representative of a variety of countries and cultural groups was prepared and shared.

Education and Training Delivery

New Course for APTC

In January this year the first health course to be delivered by APTC in the Pacific commenced in Samoa. The combined Certificate III in Allied Health Assistance/Certificate III in Health Services Assistance course commenced with twenty students who work in support roles to medical staff in hospitals and community health centres.

Samoa Graduation 18 March 2014 - 77 graduates, families and employers

The keynote speaker was the Australian High Commissioner. There was media coverage from the Samoa Observer, both TV1 and TV3 in English and Samoan, as well as air time on the Church TV station and radio.

Pastoral Care Improvements

Samoa campus has initiated a number of pastoral care changes. The newly recruited Student Services Officer is applying a very proactive approach and ensuring that any student who identified as having difficulty or needing additional assistance is given support. This has included contacting pastors, police officers and senior community representatives from most of the Pacific countries who live in Samoa. These people are then becoming part of the support network for the student(s) and they have readily partnered with APTC to try to ensure the students' academic success as well as their personal wellbeing.

Next year the Alumni will become part of this process as some alumni will 'adopt' an international student into their family and their village to help them overcome loneliness and other issues.

Certificate II in Construction students

All fifteen students have completed the twenty weeks of their Certificate II in Construction program. They have been offered eight weeks of work experience building Samoa's state of the art hockey facilities in preparation for the 2015 Commonwealth Youth Games. The foreman on the job is an APTC graduate and is happy to offer the students workplace opportunities. The students will complete their Certificate III in Carpentry in Fiji next year.

Children's Services Industry

APTC trainer and tutor recently organised an industry feedback and validation event at APTC for the principals of the preschools where students have been doing their work placement. This event provided the opportunity for APTC to thank the principals as well as for them to give genuine feedback to the students and to APTC about this course.

This semester we have celebrated with Saleaaumua Pre-School as they become the first pre - school with all APTC trained teachers. The Samoa Minister for Education commented that he will be visiting this school and discussing with the teachers and the parents the difference APTC training has made.

Disability Access unit Student accommodation

This has been a combined effort of the following groups:

- Design – APTC Disability teacher and other staff
- Cement work by National University of Samoa students
- Welding rails by APTC Certificate III Mechanical Engineering students
- Plumbing works by APTC Certificate III in Plumbing students

This unit means that we can safely and comfortably accommodate wheelchair-bound students with the assurance that their accommodation will meet their needs.

Stakeholder Engagement: Australian Aid, Industry and Community

Dinner at Visions

Hosted by Australian High Commissioner, the purpose of the dinner was to highlight APTC's continuing contribution to a cross section of key Samoan contacts. Guests included the Samoa Minister for Justice, Minister for Education and many senior key stakeholders in Samoan government and industry.

Pacific Human Rights Awards to APTC

APTC was chosen by the Secretariat of the Pacific Community's Regional Rights Resource Team (RRRT), to receive the 2013 Pacific Human Rights Awards for outstanding contribution to advancing the rights to housing and employment on Upolu Island, Samoa, after Cyclone Evan in 2012. RRRT is a program under the Education, Training and Human Development Division of the Secretariat of the Pacific Community (SPC).

The official presentation occurred in Suva in December 2013. This award is a significant achievement, and acknowledges the positive impact APTC has achieved in partnership with the Samoa Adventist Disaster Relief Agency (ADRA) to provide training to fifteen local villagers while supporting communities to build 200 fale for the most severely disadvantaged families following Cyclone Evan.

The School for Hearing Impaired (Senese) extends a thank you to APTC Certificate III in Engineering students

The small company “Paper Again” has started to flourish and this is due in no small part to the recycling trough designed and built by APTC students, and more recently the reconstruction of their paper press. The press is used to squeeze water from recycled sheets. The “Paper Again” business completely staffed by hearing impaired workers, has received an order from SSB for 5,000 sheets and is now well established. This would not have taken place without the efficient and effective design, and high standard of work carried out by the APTC students.

Leadership Samoa presentation

APTC Country Manager was again asked to deliver a presentation to up and coming Samoan middle-managers selected for this year’s Leadership Samoa program. The participants were very interested in the APTC’s course offerings as well as the statistics of APTC graduates in Samoa.

Alumni Activities

As part of their orientation in February this year all of the incoming students (more than 200) were privileged, for the first time, to be hosted by the APTC Alumni at a traditional Ava ceremony.

According to the Samoa Alumni President, the Ava ceremony in Samoan culture is very important. Its purpose is to officially welcome any special guests to meetings and gatherings, or for visiting groups from overseas or from another village. It makes them feel at home and accepted in the community. Students from Samoa, Niue, Tonga, Fiji, Marshall Islands, PNG, Solomon Islands, Kiribati and Vanuatu were welcomed to Samoa.

The Alumni President explained that: “We don’t just initiate an Ava ceremony any time we want, unless the guests are so... so... special. What I’m saying is that APTC’s new students are special to everyone in APTC Samoa. We are all different; however I believe that we all have a common goal which I simply describe as “Unity In Diversity”.

Students

The Don Bosco Annual Graduation occurred late 2013. The Education Minister delivered the keynote speech and thanked APTC for their involvement in skills development in the Solomon Islands and especially the great work with the Don Bosco Partnership.

The new 2014 DBTI groups have commenced with twenty-three construction students and twenty-six automotive students. Both groups are motivated and looking forward to completing the Certificate II qualification.

Education and Training Delivery

The first Certificate II course groups completed their studies as part of the Don Bosco partnership program in late November 2013. Graduates will now commence On Job Training (OJT) for six months and then apply to APTC to complete Certificate III programs. OJT opportunities include work experience with construction firms, motor vehicle dealers and SME's in Honiara. It is expected that all participants will find relevant OJT.

A number of Certificate IV TAE programs are being delivered in Honiara. One is a capacity-building program as part of the DBTI partnership and two are Fee For Service programs. Excellent feedback has been obtained from all participants regarding the quality of the program.

HR, Staffing, Administration, Educational Professional Support

A new Campus Administration and Receptionist Clerk has commenced and is working alongside the Office Supervisor and Student Support Officer.

Marketing and Promotions: Media Events, Community

The Country Manager attended a World Teachers Day event with the Honiara Early Childhood Education and delivered a speech recognising teachers and their commitment to the development of children, especially in the area of early childhood education.

The Minister for Foreign Affairs hosted a breakfast recently, and announced two new initiatives for women during the breakfast – Pacific Business Fund and Women in the formal economy. She also commented on the APTC and said that APTC is to be congratulated for the work they do here in the Solomon Islands and across the Pacific in providing skills and opportunities for participants.

Facilities, ICT, Assets: Accommodation, Security Equipment and Buildings

Some recent major equipment purchases for the APTC/DBTI Partnership have included a vehicle hoist, tyre changer and balancer, scaffolding and electrical/workshop tools and equipment.

Students

Vanuatu Culinary Arts Festival

APTC graduates and current students scooped the awards in the 2013 Culinary Arts Festival held in Port Vila with an array of Gold, Silver and Bronze medals across all the categories. This competition saw the introduction of two new categories, being the Service Professional of the Year which brings in the broad skills of the front of house in cocktail making, barista, and food service. Gold, Silver and Bronze Service Professionals of the year were all APTC Certificate III Hospitality graduates, currently undertaking Certificate IV Hospitality.

Another new category this year was the student chef of the year. This category saw APTC commercial cookery students and VIT culinary arts students compete for the medals. All medal winners in cookery were APTC graduates.

Student Activities

Movie and Popcorn night

This was an inexpensive exercise where we opened one big classroom and showed a recent release movie for students on a Saturday night. The students loved it and really enjoyed the popcorn the Student Services Officer made

Student Activities Calendar

We have introduced a calendar of events to include in the orientation packs to keep students informed of APTC activities, community events and festivals where students might participate, sporting events, significant activity days such as clean up the world day etc. Student Services Officer updates this monthly and then redistributes and places on the student notice board

Round Island tour

Students undertook an around-the-island tour during the mid-semester break. This tour provided an insight into Vanuatu its landscape and an introduction to the culture.

Education and Training Delivery

Employer Forum

The first APTC to Work Employer Forum was held in late November. The two hour forum was organised by the APTC to Work tutor and was attended by approximately eighty current students. It brought together a panel of industry experts who presented hints and tips on transitioning from learning to work. The panel talked about the real world, employer expectations, how to share new skills and knowledge and provided words of encouragement and support. The panel then provided answers to many questions during a plenary session. The panel consisted of representatives of each of the program areas. The forum was well received by the students and even better received from the panel who were only too pleased to be invited to participate. It was a great opportunity to build industry relationships, share knowledge and support the key messages delivered through the APTC to Work program.

Certificate IV in Community Development commencement January 2014

Twenty-five high calibre applicants commenced the first Certificate IV in Community Development course in Vanuatu. Work placements have been secured in organisations such as Vanuatu Association of Non- Government Organisations (VANGO), Wan Smol Bag, and the Vanuatu Police and Family Protection Unit.

Stakeholder Engagement: Australian Aid, Industry and Community

The Y Connect Youth Services Guide

Developed by the Certificate IV Youth Work students, Y Connect is the first National Youth services guide for Vanuatu. The project has been a collaborative effort between Vanuatu National Youth Council (VNYC), APTC Certificate IV Youth work students and the youth sector throughout Vanuatu and is testament to what genuine partnerships can achieve. The students designed the logo, branding, and the information templates and then distributed them throughout Vanuatu to gather the much needed data. The guide includes:

- An introduction by each provincial VNYC President
- An overview of each province / municipality
- Current youth statistics
- Over 120 Youth, School, Health and Community Services listings from across the six provinces and two municipalities of Vanuatu

The Pacific Youth Council is assisting in the publication of this document as it would like to see the duplication of Youth Services Guides in other Pacific countries. The concept will be discussed at the next Pacific Youth and Sport Conference to be held in New Caledonia. The Pacific Youth Council has endorsed the Y Connect Youth Services guide as a model that could be applied across the Pacific. It is anticipated that the guide will be published in a word format so that it can be uploaded on to a rewritable CD for easy distribution.

Country Manager Meetings

The Country Manager attended an Australian Aid Team Leader meeting led by Counsellor DFAT, Vanuatu. These meetings are designed to connect bilateral and regional programs with the aim of finding synergies to support the harmonising of programs.

Meetings have been held with key stakeholders in the roll out of the Early Childhood Education Program in Vanuatu. APTC is well placed to provide training to Kindy teachers and Key Teachers in the program.

A meeting was held with the new marketing manager of Warrick Le Lagon Resort and Spa. This was an initial meeting where the Country Manager could provide more detail about the nature of the training we could deliver.

The Country Manager participated in the Pacific Growth and Employment Project consultation workshop. This program is in partnership with ILO, Australian Business Council, Australian Council of Trade Unions and Industry. The program aims to enhance employment outcomes in the tourism sector in Vanuatu and in the transport sector in Papua New Guinea. As a result of this workshop there is greater consultation now underway with New Zealand Aid as the major funder of tourism projects within Vanuatu.

The Country Manager and the Children's Services delivery team are now active members of the Vanuatu Education Partners Group which brings together donors involved in education programs such as Australia, New Zealand, Peace Corp, and with representatives of GoV and NGOs such as Save the Children. This group's aim is to harmonise program activities and help to keep abreast of activities. The most recent meeting was to discuss the development of a Child Protection Policy for Vanuatu.

APTC hosted the second Child Protection Symposium 11 – 13 March 2014. This three day workshop was facilitated by Save the Children and supported our students in both community services and children's services programs to achieve their competencies in child protection and the rights of the child. The workshop was also attended by Ministry of Education representatives and culminated in the development of child protection policies for the range of organisations who host our students in work placements.

Alumni Activities

The Vanuatu Chef's Association is sponsoring the fees for the recent winner of the VIT student chef of the year competition at the recent Culinary Arts Festival to complete the APTC Certificate III in Commercial Cookery program. This sponsorship demonstrates the strong partnership between VIT and APTC and how industry associations are supporting our programs and the student's careers.

Facilities, ICT, Assets: Accommodation, Security Equipment and Buildings

Redesign of the Vanuatu Campus office and student space

The installation of smaller desks has enabled more staff to be housed in the staff room. The conference room has been transformed into a student services centre and now houses the Student Services Officer, the APTC to Work Tutor and the Learning Support Facilitator. The new senior trainer is also housed here.

VIT have given approval to refurbish the toilet block adjacent to the APTC campus for student use. Other works yet to be constructed include the student kitchenette and the assessment cubicles (for conducted LLN and VSK).

Donation of old computers

After the upgrade of the student computer lab and student laptops APTC Vanuatu was able to donate the following:

- 4 PC's and two laptops to the Vanuatu Institute of Teacher Education (VITE) for teachers staff room
- 15 PCs to Vila North School (our training partner) to set up the first ever student computer lab
- 5 PCs to Pango Village Primary School Library

Old PCs, servers and parts that were no longer working were donated to the VIT computer training department to be taken apart and put back together by their IT students.

Business Development: FFS Activity, New Partnerships

The Capacity Development Program with our key partner Vanuatu Institute of Technology is well underway. The program has been fully budgeted with the partnership agreement. The program has provided VIT with much needed staff professional development, quality system improvement and piloted the program upgrades in tourism and hospitality. Activities to date include:

- Certificate IV in Training and Assessment conducted for VIT staff who did not hold a training qualification
- Upgrades from Cert IV TAA to Cert IV TAE
- Two senior staff of VIT undertaking the Diploma of Management program
- One construction trainer completing the Cert III in Carpentry in the fee paying program.
- Quality Systems Coaching program to assist VIT meet the quality requirements of the Vanuatu National Training Council.
- APTC tutor in tourism working on a weekly basis with VIT hospitality and tourism training team to upgrade the existing delivery programs to align with the introduction of training packages by the VNTC.
- Public Works Department (PWD) request for training in the Diploma of Management. This prompted calls for another Diploma of Management which commenced in early 2014.

The Quality Coaching for VIT completed in February. This was part of a program of capacity development provided to VIT as part of our partnership agreement. APTC funded a quality coach to support VIT to develop their quality system and documentation. The program has been very successful. The Country Manager and quality coach presented the model and the outcomes to delegates from the Ministry of Education, including the Minister. The TVET sector strengthening program is now funding a full time quality coach to support other training providers in Vanuatu to develop and implement quality systems to comply with the requirements for registration as a training provider.

APTC Children Services tutor was recently invited by the Ministry of Education and Save the Children to launch the second edition of the Save the Children Magazine Nambanga Manua. The magazine is designed for both children and adults and is a great communication tool for families. This invitation is a reflect of the high profile and leadership capacity in the Early Childhood sector in Vanuatu that the APTC has and level of respect that the tutor has in the industry.
